4. FIRST-AID INFORMATION

Eyes	Rinse with plenty of water for at least 15 minutes and seek medical attention.	
Inhalation	Move casualty to fresh air and keep at rest. If breathing is difficult, give oxygen. If not	
	breathing, give artificial respiration. Get medical attention.	
Skin	Immediately flush with plenty of water for at least 15 minutes while removing	
	contaminated clothing and wash using soap. Get medical attention.	
Ingestion	Do Not Induce Vomiting! Never give anything by mouth to an unconscious person. If	
	conscious, wash out mouth with water. Get medical attention.	
General Advice	Get medical advice / attention if you feel unwell. Show this safety data sheet to the	
	doctor.	

5. FIREFIGHTING MEASURES

Suitable (and unsuitable) extinguishing media	Use appropriate media for adjacent fire. Cool containers with water, keep away from common metals. Use WATER only, no dry chemical or carbon dioxide.
Special protective equipment and precautions for firefighters	Wear self-contained, approved breathing apparatus and full protective clothing, including eye protection and boots. Self-contained air supply to protect from oxides of nitrogen. Move container from fire area if possible.
Specific hazards arising from the chemical	Noxious fumes (oxides of nitrogen) may form. Oxidizers decompose when heated to yield oxygen and other gases which accelerate combustion. Contact with organics/other combustible may result in explosion/violent combustion.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions,	See section 8 for recommendations on the use of personal protective
protective equipment and	equipment.
emergency procedures

	water to remove residual contamination. Dispose of all waste or cleanup	
	materials in accordance with local regulations.	

7. HANDLING AND STORAGE

Precautions for safe handling

Avoid formation of dust and aerosols. See section 8 for recommendations on the use of personal protective equipment. Use with adequate ventilation. Wash thoroughly after using. Keep container closed when not in use. Avoid formation of dusts.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area. Keep away from incompatible materials (see section 10 for incompatibilities). Store under inert gas.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure controls: Contains no substances with occupational exposure limit values.

Personal Protection

Eyes	Wear chemical safety glasses or goggles.
Inhalation	Provide local exhaust, preferably mechanical. If exposure levels are excessive, use an approved respirator.
	approved respirator.
Skin	Wear appropriate chemical-resistant gloves, apron and other protective clothing appropriate to the risk of exposure.
